Redistricting Data

The United States Constitution (Article 1, Section 2, Clause 3) requires a national census once every 10 years to count our population and to determine the number of seats each state will have in the U.S. House of Representatives and the Electoral College. Based on the 2010 Census, Texas is picking up four seats in the House.

The redistricting process is used to determine where the new district boundaries will be delineated. Redistricting data (total population, voting age population, race/ethnicity, and housing units/occupancy) is available down to the Block Group level and is summarized herein by 2010 Census Tracts for the City of Frisco, TX.

Data is presented in a table format and includes a key map to indicate the location within the city. The data for entire City of Frisco is shown below:
